

CBRE Japan

Cap Rate Survey

March 2024

[Vol. 83]

CBRE

Notes to editors

1. Objective
The objective of the survey was to collect and analyze the data looking at the level of expected yields for real estate investments.
2. Survey method and period
Sent and received by e-mail between March 1 to March 28, 2024. (Note: Replies after deadline were also accepted.)
3. Recipients surveyed and response rate
 - Recipients: 130 individuals (130 corporations)
 - Response: 111 individuals (111 corporations)
 - Response rate: 85.4 % by individuals (85.4 % by corporations)
4. Type of respondents
Arrangers, Lenders (senior), Lenders (mezzanine), Developers, Real property lessors, Asset managers (Mainly for J-REITs), Asset managers (Mainly for non -J-REITs), and Equity investors, among others.
5. Policy regarding the release of survey results
This report is an excerpt of the results from our quarterly survey.
Although CBRE Research started tracking quarterly data in July 2003, only data after July 2007 is available for public release.

The full report of the survey is only available for respondents, limited to those directly or indirectly involved in real estate investment.

Those who wish to participate in the survey may apply by e-mail at investment-survey@cbre.co.jp.

Disclaimer

Results of the survey are based on the opinions of those in the real estate investment market, who responded to the survey conducted by CBRE and, as such, does not necessarily represent the opinion of all market participants. The results are not based on actual transactions.

The results of the survey are based on an assumed property of a certain category. It is not necessarily applicable to actual individual properties in specific or general means, whether they fall into the category or not.

The figures have proportionate deviation according to the nature of the survey and the sample number.

Although CBRE expends all possible means to ensure accuracy of the data based on the results of the survey, it cannot be held responsible for the accuracy of the figures. CBRE does not make any assurance, whether it is suitable or complete for the user's specific purposes or commercial use.

CBRE shall not be responsible, in any event, for damages incurred by the user of a third-party due to the use of the survey results.

CBRE is entitled to correct the released data anytime, and cease or discontinue the release of the data without notice.
